**PETITION TO CORRECT PATENT TERM ADJUSTMENT PERIOD  
IN GRANTED PATENT**

Sir:

The granted patent erroneously lists the patent term adjustment period as 13 days. The Determination of Patent Term Adjustment under 35 U.S.C. 154(b) erroneously lists the patent term adjustment as 51 days. The patent term adjustment history from PAIR shows the USPTO Delay as 220 days and the Applicant Delay as 207 days. In response to the request for new drawings in the Notice of Allowance, mailed May 14, 2004 due to the original drawings being of low quality, applicant submitted a new set of drawings on June 14, 2004 using Express Mail. Patent Term Adjustment History has applicant delay of 120 days for Finished Drawings which applicant believes is incorrect. The USPTO delay was 220 days and the applicant delay was 87 days, therefore we request that the Patent Term Adjustment be re-adjusted to 120 days.

Enclosed is a copy of the cover page of the patent, copy of Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) received with the Notice of Allowance, copy of Image File Wrapper from PAIR and copy of Patent Term Adjustment History from PAIR for your convenience.

Applicant believes this error is ascribable to the Patent Office, applicant is requesting re-consideration of the patent term adjustment within two months of the date of the issued patent under §1.705(d). Accordingly, no fees are required. However, if this is incorrect, the Commissioner is hereby authorized to charge the \$200 fee under 37 CFR §1.18(e) and any additional fees that may be required to Deposit Account No. 19-3880 in the name of Bristol-Myers Squibb Company.

Respectfully submitted,

Bristol-Myers Squibb Company  
Patent Department  
P.O. Box 4000

(57) **ABSTRACT**

The present invention provides novel polynucleotides encoding HLRRSII polypeptides, fragments and homologues thereof. Also provided are vectors, host cells, antibodies, and recombinant and synthetic methods for producing said polypeptides. The invention further relates to diagnostic and therapeutic methods for applying these novel HLRRSII polypeptides to the diagnosis, treatment, and/or prevention of various diseases and/or disorders related to these polypeptides, particularly gastrointestinal diseases and/or disorders. The invention further relates to screening methods for identifying agonists and antagonists of the polynucleotides and polypeptides of the present invention.

## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 51 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 51 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

PTA = 51 days
